

Rondeau Provincial Park Phragmites Control

NOTICE: An aquatic herbicide application for control of Phragmites is planned for September - October 2020, in Rondeau Provincial Park.

Ontario Parks will directly notify park users before the herbicide is applied.

Application period: September 8th – October 31st, 2020
(weather permitting)

For updates visit <http://rondeauprovincialpark.ca/>

Herbicide: Roundup Custom® (glyphosate) (Reg. no. 32356)

Please refrain from fishing or waterfowl hunting in treatment areas for 24 hours following herbicide application.

**For more information about the aquatic herbicide application,
visit the park Visitor Centre or Park office**
